Paring The Headphones With Bluetooth Enabled Devices

1. Press and HOLD the [Power, call, answer] button until a tone is heard and the LED indicator light flashes BLUE.
2. Keep your Bluetooth headphones and Bluetooth enabled device within 3 feet of each other during the pairing process.
3. Set your mobile device to search/scan for new Bluetooth devices.

Note: If a paired device is in range when the headphones are turned on, the headphones will connect to it automatically

On an iPhone®

Go to settings > Bluetooth
(Make sure Bluetooth is turned ON)

On an Android™ Phone

Go to settings > Bluetooth > Search/Scan for devices
(Make sure Bluetooth is turned ON)

On Other Cell Phones/Devices

Review the instruction manual that came with your phone/device.

4. When the Bluetooth enabled device finds the headphones, select “Harmonize” from the list of devices found.
5. If required, enter the password “0000”. Select OK or YES to pair your device.
6. After a successful paring, a tone will be heard and the LED indicator light will be a steady BLUE.

*Note: If you would like to connect the headphones to another device, you must unpair the headphones from the first device. On your device’s Bluetooth settings, select “*Harmonize*”, and then select “unpair”. When the headphones have been*

unpaired, turn off the headphones, and then turn them back on to enter pairing mode again.

Using your Bluetooth Headphones

Powering （Call button)ON/OFF

- To turn ON, press and HOLD the [Power, Call, Answer] button until a tone is heard.
- To turn OFF, press and HOLD the [Power, Call, Answer] button until a tone is heard.

Adjusting The Volume

- To increase the volume, long press the [∧ | button.
- To decrease the volume, long press the | ∨] button.

Note: You can also adjust the volume from your connected device’s volume control.

Answering ending a call

- To answer a call, quick press the [Call] button.
- To end a call, quick press the [Call] button again.

Redial a number

- Double press the [Call] button. The last number called will be redialed.

Playing Music

To enjoy wireless music on your Bluetooth Headphones, make sure you are connected to a Bluetooth enabled device. Once connected, you can control the music on the headphones or on your connected device.

Note: Most media enabled smartphones will display “Connected to phone audio and media” when connected to the Bluetooth headphones. This means you can make calls, enjoy music and media.

Play/Pause

- Quickly press the [Play, Pause] button to play music.
- Quickly press the [Play, Pause] button again to pause music.

Skipping Songs

- Quickly press the [⏶] button to skip to previous song.
- Quickly press the [⏷] button to skip to next song.

Using 3.5mm Wired Cable on Headphones

1. Connect one end of the included 3.5mm Auxiliary Cable to the AUX-IN jack on the headphones, and the other end of the cable to the external device's headphone jack port (smartphone, tablet, computer or MP3 player).
2. Open a media player on your device and click on PLAY to start playing your music.
3. Use the controls on your connected device to control music playback and volume.

Note: Microphone on headset does not work when the wire is connected.

Frequently Asked Questions

One Year Limited Warranty: Your satisfaction is our priority. If you're not happy with this product, we'll make it right within one year from date of purchase. For all warranty inquiries, direct your questions to warranty@alphacomm.com or call 1-888-951-0909.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
